PARTNER WITH PURPOSE

Join a community dedicated to helping young families find joy in terminal illness

OUR STORY

Inheritance of Hope began with one young family facing a parent's terminal illness – a mom and dad with young children looking for resources for their entire family as they all navigated the mom's illness. Surprisingly, there were none. They decided to create resources for their family and share them with others.

In 2007, Deric and Kristen Milligan launched Inheritance of Hope with the mission to inspire hope in young families facing the loss of a parent, and the brand has grown to serve families throughout the US. Inheritance of Hope now offers a variety of in-person, online and ongoing programs for every member of the family.
