

You brought me to this holy place
And in your presence I am found acceptable
I am caught up in the smile upon your face
You're purely irresistible

CHORUS:

And I can't help but sing your name Jesus
And I can't help but bring your name to those without you

So draw them to this holy place
Bring the lost so they'll be found acceptable
May they see you in the smile upon my face
Make me irresistible just like you

CHORUS 2:

And I can't help but praise your name Jesus (repeat)

BRIDGE:

I want to copy you, I want to love just like you do
A friend of sinners big and small, a grace that makes it possible
To hold the hand of prostitutes, to dine with those of disrepute
Change my heart and make it long to seek and save
And reprobates will dance and long and sing your name

CHORUS 3:

And we can't help but praise your name Jesus (repeat)
And we can't help but bring your name to those without you
