Inheritance of Hope is a charity devoted to inspiring hope in young families facing the loss of a parent. The organization was founded by Kristen and Deric Milligan following Kristen's diagnosis with a rare terminal liver cancer at the age of 30.

Sadly, Kristen lost her courageous bout with cancer in 2012, but her passion remains as the organization continues to provide opportunities for families to learn about shaping their legacy and offers tools to help each member of the family successfully navigate a difficult period in their lives. "Our goal is to provide families with an experience that they will remember forever," said Deric Milligan, CEO of Inheritance of Hope. "Seeing the direct impact of Inheritance of Hope on me and my children in the wake of losing Kristen has been very affirming. I can clearly see the importance of the work we're doing on a daily basis and it reinforces our belief that 'Every Family Deserves a Legacy,'" added Milligan.

Families from 38 states have participated in a Legacy Retreat®, an all-expenses-paid experience to help families create lifelong memories and receive tools to navigate the challenges of terminal illness.
