

The [Inheritance of Hope \(IoH\) story](#) began with one young family facing a parent's terminal illness – a mom and dad with young children looking for resources for their entire family as they all navigated the mom's illness. Surprisingly, there were none. They decided to create resources for their family and share them with others.

In 2007, Deric and Kristen Milligan launched IoH with the mission to inspire hope in young families facing the loss of a parent, and the brand has grown to serve families throughout the U.S.
